FEXCO TRANSACTION SERVICES

ABOUT FEXCO

FEXCO

Your Trusted Partner

FEXCO is Ireland's most successful multinational financial technology and business solutions provider, with operations in 28 countries worldwide. Founded and head-quartered in Ireland in 1981, FEXCO employs more than 2000 people across Europe, the Middle East, Asia, North America, Latin America and Australasia.

FEXCO serves some of the world's biggest brands across multiple industries through a wide range of innovative products and services, including Dynamic Currency Conversion, Commercial and Retail FX, Managed Business Solutions and Tax Free Retail Services.

MAXIMIZING SECURITY
FEXCO Transaction Services are fully PCI-DSS and EMV compliant migrating risk away from our clients. FEXCO's solutions include the latest technology in security and data protection.

EASE OF CONNECTIVITY
FEXCO Transaction Services are a consolidated single point of focus for a variety of payment transaction types (F2F, Card Not Present, E-Commerce) which can be delivered to the acquirer or card scheme's existing acquiring platforms without the need to make any changes.

REPORTING & MONITORING
Secure access for merchant's clients for transaction reporting and monitoring, with capabilities for multi-level reporting including individual device and transaction level analysis.

WHITE-LABELLING
FEXCO can provide a fully white-labelled solution which can be branded to complement client's existing systems and solutions, ensuring our clients can maintain their customer relationships.

EMV COMPLIANCE
FEXCO Transaction Services build a future–proof infrastructure that will support emerging payment innovations, enhance global acceptance and reduce risk and optimize EMV compliance.

TRANSACTION ACCEPTANCE
FEXCO Transaction Services incorporate the latest switching and conversion technology to facilitate multi-file transfer to facilitate connection between different financial system and platform types.

VALUE-ADDED SERVICES
FEXCO Transaction Services can be complemented with a range of Value Added Service Applications which can be added to payment devices for clients who require more than credit and debit card functionality.
