

OpenConnect

an end-to-end -payment
service

FEXCO Merchant Services is a world-leading payment services provider with 35+ years of experience in delivering payment solutions to banks, card payment acquirers and payment transaction processors.

FEXCO Merchant Services is a PCI-DSS Level 1 certified transaction service provider accredited with leading card payment acquirers around the globe.

OpenConnect Payment Services utilize the latest electronic payment security and transaction integration techniques to bring together cardholder present, cardholder not present and eCommerce environments to a range of transaction destinations – a completely flexible omni-channel solution.

OpenConnect's transaction integration framework provides expedient, simple and efficient means of enabling EMV-compliant payments in EPOS semi-integrated payment environments in retail, hospitality and other sectors.

An end-to-end payment service

Features

FEXCO OpenConnect delivers a diverse range of reliable, robust and future proofed transaction services providing the ultimate in flexibility for all your payment and other transaction solution needs.

Globally Connected

Connection of payment accepting devices to an extensive worldwide network of local and international card acquirers.

Transaction Management

OpenConnect Payment Services allows payment and other secure electronic transactions to be converted from one protocol and/or message format to another.

Transaction Devices & Support

Provides a focal point for a range of transaction types both face-to-face and eCommerce delivered from a broad range of EPOS-connected, counter POS and mobile POS as well as kiosks and other unattended payment devices.

White Labelling

OpenConnect can be provided on a fully white-labelled basis.

Ease of Integration

FEXCO's ability to adapt existing interface standards of payment acquirers, value added service providers and other clients ensures that complex solutions can be delivered with little or no need to change existing systems.

Treasury Management

Provides unrivalled treasury management expertise. Our Transaction Services are underpinned by our comprehensive treasury management & banking infrastructure which allows us to settle funds in any currency, all over the globe, quickly and efficiently.

Security and Compliance

OpenConnect is fully PCI-DSS and EMV compliant, and uses the latest techniques in end-to-end security and data protection to provide solutions which significantly reduce the scope of PCI audits for merchants.

Real Time Reporting and Insights

Secure access for acquirer's clients to transaction reporting and monitoring.

Bespoke Interfaces

FEXCO can develop scheme and acquirer interfaces to suit specifications on an individual basis.

24/7 Support

Worldwide 24/7 operational support is provided by the in-house FEXCO Operations Team.

Benefits

Device and System Neutral

A fully self-sufficient services and solutions partner who is vendor independent and impartial to providers of PoS devices and other services.

Proven Track Record

Proven track record in delivering and operating secure, flexible and fault tolerant payment systems.

Global Network

Global network plus local offices and staff with market knowledge and expertise, focused on building long term client relationships.

Solutions that Deliver Value

Providing solutions which deliver value to acquirers and merchants and strengthen the acquirer/merchant relationship.

Cross-Border Expertise

With unequalled knowledge of cross-border and FX payment transactions, FEXCO supports a range of F2F and e-commerce payment facilities to meet the international transaction requirements for acquirers and merchants.

Additional Value

DCC provides acquirers with a market-competitive service which is valued by merchants.

Expedient DCC Enablement in EPOS Solutions

OpenConnect's Framework provides an expedient means of enabling DCC in EMV/PCI DSS-complaint EPOS payment solutions, eliminating the need for changes in PoS/PED card payment applications and merchant EPOS software.

OpenConnect provides an expedient mechanism for deployment of Dynamic Currency Conversion (DCC).

Dynamic Currency Conversion (DCC)

OpenConnect comes with integrated DCC functionality allowing customers access to new revenue streams.

Multi-Currency Pricing (MCP)

An e-commerce payment solution that allows your customers to browse and pay in their preferred currency.

Future Proofed

Vigilant to market changes and demands, OpenConnect is continually enhanced adding new features, connections and a continually broader range of services.

Increased Revenue

Generates additional revenue streams from existing international credit card transactions.

Guaranteed DCC Revenue

Sharing OpenConnect's fully managed treasury solution guarantees the merchant their agreed commission. DCC revenue share offsets merchant costs for equipment and PCI compliance.

Modular & Flexible

Operates on a modular basis and can be customised to each customer's circumstances.

Improved Customer Service

Merchants can offer an enhanced sales experience for their international customers.

Integrated DCC & MCP Functionality

FEXCO Merchants Services is the global leader in the provision of Dynamic Currency Conversion (DCC), Multi-Currency Pricing (MCP), Payment Switching Solutions and Consumer Sales Tax Refund Services.

OpenConnect provides an expedient mechanism for deployment of Dynamic Currency Conversion (DCC).
